Facts not fiction

Why automate insurances?

01 ● Multi-quote & buy / bind platforms

With the continued rise in the use of smartphones and tablets, the next generation of business men and women are going to expect services that they can access quickly online, including SME commercial insurances... Are you ready?

We have helped many international partners who embraced the technology changes and wished to become pioneers in their country by offering their clients a wide choice of commercial SME insurance products, online 24 / 7. Many of our partners not only use products from local Insurance Providers, but also take advantage of our introductions to Lloyd's and London market Suppliers, giving them a real competitive edge over other Brokers.

We are actively looking for further partners in Europe, Asia, North & South America, New Zealand and Australia.

So, if you are ready to make your move and would like to expand into the world of online trading and robotic animations, we can help. We will guide you through the entire process of setting up the white-labelled online Multi-quote & buy / bind insurance platform and for carefully selected Brokers / MGA's we can even offer our platforms for **FREE!**

02 ● Ladies and Gentleman

It is safe to say that online trading (via mobiles / tablets) is here to stay and client demand for this type of service is continuing to grow at a phenomenal rate, right around the world. Many Insurance companies and Brokers still need to catch up with the times and could even face being left behind if they do not provide their clients with easy to use online platforms, open for business 24 / 7.

Smartphones and tablets are the new Kings and Queens of our generation, allowing us all to buy as we move. We simply cannot use the excuse that insurance is too complicated, as the modern - day business owners will continue to demand simplified insurance solutions that can be purchased online, 24 / 7.

03 ● Thought provoking consideration

If you are still not convinced, check out some eye watering statistics on the amount of online sales last year...

- Italy – 20 billion
- USA – 399 billion
- Sweden – 5.5 billion
- Germany – 59.7 billion
- Australia – 22 billion
- Norway – 16.4 billion
- France – 70 billion
- UK – 114 billion
- Hong Kong – 17 billion
- South Korea – 36 billion
- Thailand – 58 billion

Convincing, right? So, as Mark Twain said: "The secret of getting ahead is getting started!" - Call us now to get ahead of your competition.

The road to new clients

...is online

05 ●

What we provide

We have a wealth of experience when it comes to providing carefully selected international partners with a **FREE** online Multi-quote & buy / bind insurance platform. Subject to approval and the negotiations with Insurance Providers, we can blend a mix of local products with Lloyd's and London market products, giving you an edge over other Brokers.

Our platforms include as standard, one of the most proven and sophisticated back-office systems of its kind and we can offer you the option to trade B2C, B2B or both, with integration into most, if not all, existing software systems that you may be currently using.

If needed, we can provide you with a range of copyright **FREE** images, brochures and template marketing packs to help promote your **NEW** online platform, once you have translated them and adapted the branding. Call us for further details.

06 ●

Flexible, first class system

If you currently wholesale to other Brokers, or have plans to do so, the system allows you to offer access to the platform for the members in your Broker network, on a split commission basis. This can be a great way to enhance the services and benefits provided to your Brokers and also increase revenue.

Our online Multi-quote & buy / bind insurance software leads the way in the UK and Internationally, and is extensively used by Brokers, Insurers and Affiliate Groups around the world.

Our software capabilities are extremely versatile and we can adapt the system to fit even the most complex of requirements, which makes it ideal for schemes.

Once the terms of business agreement has been signed and confirmed, your system can be set live within 24 hours, in the following ways:

- Simply notify whoever manages / hosts your website and provide us with their details. We will then make contact directly to show them how to add the system to your website.

- Alternatively, forward your website login details – these will usually be in the form of an 'FTP' address (e.g. ftp.yourwebsite.com), a username and a password. If in doubt, the company or person who built, hosts or manages your website should be able to supply these.

07 ●

Advanced online metamorphosis for your office

08 ● Technology at its best

Consumer protection continues to dominate focus in many industries, with insurance being one. No matter where you are located in the world, due to the globalised economy that we live in, at some point you will be exposed to a range of regulatory and legal frameworks. For instance, the EU General Data Protection Regulation (GDPR).

It is therefore vital that any online facility offered to a consumer meets the strict requirements of storing all transactional data, at any point throughout the sales process.

Luckily enough for you, our back-office is one of the most proven and sophisticated systems of its kind and will help to fulfil your regulatory requirements. Again, it can be completely bespoke to meet your unique needs.

10 ● Information at a glance

Unlike many other systems, the process of reviewing and categorising data via the back-office is exceptionally straightforward.

Our flexible approach means you can choose how to breakdown the data. Usual examples chosen are by time, date, product type and country.

Your back-office will help you to create reports and undertake in-depth analysis. By having quick and easy access to the data, you will be able to add serious value to your business by developing solutions to fulfil the advancing consumer requirements.

09 ● Data to help grow your business

In today's technology saturated climate, data is King and Queen. To stay ahead of your competition, you will need the means to effectively analyse consumer behaviour, interaction and buying habits. Your back-office system will not only help you analyse this information, but could also be the catalyst for innovation, helping you expand your business.

Your back-office system saves all real-time information that is generated through the quote & buy / bind facility, whether it is a sale, or not. Here's just a snippet of what features your back-office could include, however, it can be completely tailored to your specification:

Clients completed proposals, quotations, incomplete quote requests (useful to see why and where clients drop off the page), bound policy information, payment methods, renewals area, Broker details, claims, mid-term adjustment requests and many more!

11 ● Simple one click automation

We all know how much time is lost to processing administration and handling mid-term changes. Fortunately, enough, your back-office provides 'one click' automation to save the day... and money! Whether it is a change of name, address, issuing / re-issuing documentation / renewal notices, and / or higher limit requests, your back-office has the capability to action these with 'one click' delivery.

12 ● Training

Our systems are built with ease of use in mind, however, it does not mean we do not provide additional support and training services. We are always happy to offer ongoing support and training to help you get the best out of your system. Whether it is via Skype, or you need an on-site visit, our team are prepared to assist.
